

## Have your say in shaping future local NHS dermatology services

We are proposing changes to your local dermatology services. If you, a member of your family or someone you care for has seen a dermatologist recently we would like to hear your views. Or, if you are interested in how this service will be developed please do come to one of these events. We particularly want to know:

**What works well?**

**What could be better?**

**What would you change?**

We want to hear about and use your experiences, comments and feedback to help shape a new service. Please come along to hear about our draft plans and tell us what you think.
